

PROTEX

The most durable, cost-effective and responsible heavy-duty temporary surface protection. Period.

It's been a cold winter for a lot of the country - but there's been a lot around here to keep us busy and warm. We just launched our new and improved website - so when you have a chance check it out. www.protex-products.com

James McHugh Construction Co.

McHugh – Just took delivery of another order of PROTEX – PROBoard 24 and PROBoard 16 – to protect the floors at it's latest project. 73 East Lake Street - a 42 story luxury high-rise residence designed to LEED Gold standards

EDC, the official magazine from US Green Building Council (USGBC) for the LEED® Professional is the foremost resource in the green building industry that identifies, educates and reports on superior sustainable building methods and products, just released a video on its Youtube channel being creative with some PROTEX products.

Product Productions, one of the Midwest's premier equipment rental and production services facilities, sent us a little note.

"A little over a year and half ago, we started using PROTEX to protect the floors and walls on our clients' jobs because it provided superior protection and met all PGA Green standards. PROBoard quickly garnered widespread approval to the point where, now, our clients will not use anything else." B. Grossman - Executive Producer

Trent Depel
Director of Sales

PROTEX helps you earn up to 6 LEED credits.
